

**REMARKS**

This US application claims priority from PCT/GB2004/000305 filed on January 27, 2004; GB 0307884.7 filed on April 7, 2003; and GB 0326791.1 filed on November 18, 2003.

We have received, and enclose with this filing, a copy of a Search Report dated 14 June 2004 conducted by the UK Patent Office on a corresponding case.

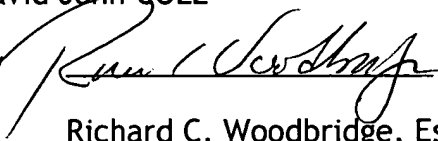

The U.S. Patent Office is hereby requested to examine the application as amended. The amendment to the specification was made to include the priority information and to conform to US patent format. The amendments to the claims were made to remove the multiple dependencies. No new matter has been added by making these amendments.

If the patent examiner has any questions or comments, he/she is respectfully requested to contact applicant's attorney at the telephone number indicated below so that additional amendments may be added as required.

Respectfully submitted,

David John COLE
